

CURRICULUM EDUCATIONAL APPROACH

STAFFORD
—ACADEMY—
EDUCATION FOR LIFE

Traditional Learning

Preschool, Pre-K, Kindergarten, 1st & 2nd Grade. We support our Teachers to fully utilize their creativity and instruction using the Core print (text/workbook) curriculum as their foundation.

Blended Learning

3rd Grade – 6th Grade. We integrate technology and individualized instruction through the core online-curriculum, and whole group instruction and activities in a 5-day a week in-person class setting.

Accelerated Learning

We encourage self-motivated and goal-directed students who are looking for more information, a faster pace and bigger challenges to reach beyond the standard benchmarks to continue to learn at their pace.

We use Alpha Omega Publications & Ignitia Virtual Academy as our curriculum & online platform

Horizons Workbook Curriculum: Preschool, Pre-K & Kindergarten

Horizons is a colorful print curriculum that uses a spiral learning method of quick introduction, review, and reinforcement to ground students in essential fundamentals and help them easily memorize concepts through repetition. Kindergarten courses include phonics and reading, math, and health. Preschool curriculum for 3's & 4's. Rooted in the Bible, Horizons is well-known for its eye-appealing content, hands-on activities, and solid results of student comprehension. Students use workbooks with removable pages, and a test is generally administered after every 10 lessons. Fun, hands-on activities that coordinate with lesson concepts are included in the teacher's guides. These easy-to-use guides also include daily planners, lesson schedules, clear objectives, and answer keys.

LIFEPAC: 1st & 2nd Grade

LIFEPAC is a colorful print curriculum with Bible-based content for grades K-12. Integrating Scripture passages to help students connect daily learning to biblical truth, LIFEPAC is available in the five main subjects of Bible, history and geography, language arts, math, and science, as well as electives. The curriculum uses mastery-based learning, so students master the concepts and content in each unit before progressing further. Combining textbook and workbook lessons into "worktext" units, LIFEPAC conveniently coordinates lessons, illustrations, exercises, projects, reviews, and tests. Ten LIFEPAC worktexts provide one full year of a course. Individual worktexts take approximately three to four weeks to complete, giving students a motivating sense of accomplishment as they complete each worktext. Teacher's guides are available with a curriculum overview, lesson objectives, additional activity ideas, and answer keys.

Ignitia Virtual Academy: 3rd-6th

Online Curriculum for Grades 3-12. Watch your students grow with Ignitia! Bible-based courses include the five main subject areas of Bible, history and geography, language arts, math, and science, as well as a broad set of engaging electives. Available 24/7, Ignitia courses are accessible from any computer with a high-speed Internet connection. Ignitia offers mastery-based lessons, assignments, quizzes, and tests. The lessons include more than 50,000 multimedia elements like interactive games, audio and video clips, external web links, and off-computer assignments. In addition, time-saving tools for teachers include automatic grading and lesson planning, individualized lesson planning, real-time curriculum updates, a convenient internal messaging system, and streamlined data management for easy reporting.
